

**BO AN****School of Computer Engineering, Nanyang Technological University**

Bo An is a Nanyang Assistant Professor at the School of Computer Engineering of the Nanyang Technological University. He received the Ph.D degree in Computer Science from the University of Massachusetts, Amherst and was a Postdoctoral Researcher at the University of Southern California.

His research interests include artificial intelligence, multi-agent systems, game theory, and optimization. He has published over 40 referred papers at AAMAS, IJCAI, AAAI, and ICAPS. He is the recipient of the 2010 IFAAMAS Victor Lesser Distinguished Dissertation Award. He won an Operational Excellence Award from the Commander, First Coast Guard District of the United States. He won the Best Innovative Application Paper award at the 11th International Joint Conference on Autonomous Agents and Multi-Agent Systems and the Deployed Innovative Application Award at the 28 Annual Conference on Innovative Applications of Artificial Intelligence. He also won the 2012 INFORMS Daniel H. Wagner Prize for Excellence in Operations Research Practice. He is a member of the board of directors of IFAAMAS and Associate Editor of Journal of Autonomous Agents and Multi-agent Systems.
